

SpeedClaim Arogya Shield Plus

Clear hospital protection for individuals and families

Important test-document notice

This brochure describes a completely fictional insurance product created only for software development, retrieval testing, demonstrations, and evaluation. It is not approved by any regulator, cannot be purchased, and does not provide insurance coverage.

Document version	1.0
Effective date	01 January 2026
Synthetic product code	SC-TEST-HI-001
Brochure language	English
Document type	Text-based PDF

One brochure version - one PDF - immutable after publication

SECTION 1

How to read this brochure

This summary explains the fictional product in plain language. Numbered clauses and page numbers are intentionally included to support citation-based retrieval testing.

Brochure and policy schedule work together

This brochure describes standard product rules. The policy schedule identifies the insured persons, selected sum insured, plan type, add-ons, premium, policy period, and any accepted underwriting terms. If the schedule contains a specific accepted term, that term applies to the issued policy.

1.1 Product purpose

Arogya Shield Plus reimburses or directly settles eligible medical expenses for covered illness or accidental injury during the policy period, subject to this brochure, the issued schedule, waiting periods, exclusions, limits, and claim conditions.

1.2 Policy basis

Coverage may be issued on an Individual basis, where each insured person has a separate sum insured, or a Family Floater basis, where all insured members share one sum insured.

1.3 Advisory explanations

Any digital Policy Guide answer is an AI-assisted explanation. The issued policy wording and schedule remain authoritative. The Policy Guide does not approve claims, change coverage, calculate final premium, or perform endorsements.

Contents

Section	Topic
1	How to read this brochure
2	Eligibility and plan structure
3	Core coverage
4	Limits and cost sharing
5	Waiting periods
6	Exclusions
7	Optional add-ons
8	Premium rate guide
9	Claims process
10	Policy servicing and endorsements
11	Renewal, cancellation and grievances
12	Definitions

SECTION 2

Eligibility and plan structure

Who can enter the plan, who may be covered, and which sum-insured options are available.

Eligibility item	Rule
Adult entry age	18 to 65 completed years
Dependent child entry age	91 days to 25 completed years
Maximum renewal age	No maximum renewal age while the policy is renewed without a break
Policy term	1 year
Family Floater composition	Up to 2 adults and 3 dependent children
Relationship	Self, legally married spouse, dependent children, and dependent parents on Individual basis
Medical underwriting	May be required based on age, health declaration, sum insured, and underwriting rules

2.1 Available sum insured

The available base sums insured are INR 300,000, INR 500,000, INR 1,000,000, and INR 2,000,000. The chosen amount appears in the policy schedule.

2.2 Dependent child rule

A dependent child may remain covered until the end of the policy year in which the child turns 25. A child who is financially independent is no longer eligible as a dependent from the next renewal.

2.3 Geographical scope

Eligible treatment must be taken within India. Overseas treatment is not covered under this product.

2.4 Network access

Cashless treatment is available only at an empanelled network hospital and remains subject to pre-authorization. Treatment at a non-network hospital may be considered on reimbursement basis if all claim conditions are satisfied.

SECTION 3

Core coverage

The following benefits apply when shown as active in the policy schedule and when all applicable conditions are met.

Clause	Benefit	What is covered
3.1	In-patient hospitalization	Room, nursing, medical practitioner, surgery, anesthesia, medicines, diagnostics, and medically necessary hospital services for admission exceeding 24 consecutive hours.
3.2	Day-care procedures	Listed medical procedures requiring less than 24 hours due to technological advancement, when performed at a hospital or day-care center.
3.3	Pre-hospitalization	Eligible related medical expenses incurred during the 60 days immediately before an admissible hospitalization.
3.4	Post-hospitalization	Eligible related medical expenses incurred during the 90 days immediately after discharge from an admissible hospitalization.
3.5	Road ambulance	Reasonable road ambulance expense for transport to the nearest appropriate hospital, up to the limit in Clause 4.3.
3.6	AYUSH treatment	In-patient treatment under Ayurveda, Yoga and Naturopathy, Unani, Siddha, or Homeopathy at an eligible institution, up to the base sum insured.
3.7	Organ donor expenses	Hospitalization expenses of an organ donor for an admissible transplant to the insured person, subject to Clause 4.4.
3.8	Domiciliary hospitalization	Medically necessary treatment at home when hospital transfer is not possible or no hospital bed is available, subject to Clause 4.5.

Hospitalization must be medically necessary

Admission only for observation, investigation, convenience, or social reasons is not covered. The treating practitioner's recommendation alone does not remove the requirement for medical necessity.

SECTION 4

Limits and cost sharing

Some benefits have sub-limits or cost-sharing rules even when the overall base sum insured is higher.

Clause	Item	Limit or rule
4.1	Room rent - INR 300,000 or INR 500,000 SI	1% of base sum insured per day; ICU up to 2% per day
4.2	Room rent - INR 1,000,000 or INR 2,000,000 SI	Single private room; no fixed daily monetary cap
4.3	Road ambulance	INR 2,000 per event, maximum INR 5,000 per policy year
4.4	Organ donor	10% of base sum insured, maximum INR 200,000 per policy year
4.5	Domiciliary hospitalization	10% of base sum insured per policy year
4.6	Automatic recharge	100% of base sum insured once per policy year for an unrelated illness or injury after exhaustion
4.7	No-claim bonus	10% increase in base sum insured for each claim-free year, up to 50%; no additional premium
4.8	Co-payment	20% on each admissible claim when the eldest insured entered at age 61 or above

4.9 Proportionate deduction

If an insured person voluntarily occupies a room above the eligible room category, associated medical expenses may be reduced in the same proportion, except where the expense does not vary by room category.

4.10 Recharge restriction

Automatic recharge does not pay the same illness or related complication for which the base sum insured was exhausted during that policy year. Unused recharge does not carry forward.

4.11 Bonus reduction

After an admissible claim, the accumulated no-claim bonus reduces by 10 percentage points at the next renewal, but not below zero. The base sum insured is not reduced.

SECTION 5

Waiting periods

A waiting period begins on the first continuous policy start date. Coverage begins only after the stated number of continuous days or months, unless an exception below applies.

Clause	Waiting period	Duration	Important exception or condition
5.1	Initial waiting period	30 days	Does not apply to treatment required solely because of an accident occurring after policy start
5.2	Pre-existing disease	24 continuous months	Applies to a condition diagnosed, treated, or showing signs/symptoms during the 36 months before policy start
5.3	Specified diseases/procedures	24 continuous months	Includes cataract, hernia, piles, sinusitis, tonsillectomy, gallstones, kidney stones, and joint replacement unless caused solely by accident
5.4	Maternity add-on	9 continuous months	Applies only when the add-on is shown in the schedule

5.5 Continuity credit

Waiting-period credit may be recognized for continuous prior coverage when permitted by portability or migration rules and accepted by the insurer. The credit recorded in the policy schedule controls.

5.6 Increase in sum insured

When the base sum insured is increased at renewal, waiting periods apply afresh only to the increased portion unless the schedule confirms a different accepted term.

5.7 Break in policy

A break in continuous coverage may cause waiting periods to restart, except where a legally permitted grace-period or continuity protection applies and renewal is accepted.

Example

If coverage starts on 01 January 2026, an illness first requiring hospitalization on 20 January 2026 is within the 30-day initial waiting period unless it resulted solely from an accident after policy start.

SECTION 6

Exclusions

The following are not covered unless this brochure expressly states otherwise or a selected add-on changes the rule.

6.1 Investigation and evaluation

Admission mainly for diagnostics, observation, or evaluation without active treatment.

6.2 Cosmetic or plastic surgery

Treatment primarily to change appearance, except medically necessary reconstruction following a covered accident, burn, or cancer surgery.

6.3 Dental treatment

Routine dental care, fillings, root canal treatment, dentures, and orthodontics, except inpatient treatment required due to a covered accident.

6.4 Vision correction

Treatment to correct refractive error where the refractive error is less than 7.5 diopters.

6.5 Infertility and assisted reproduction

Investigation or treatment for infertility, sterilization reversal, IVF, IUI, surrogacy, or related procedures.

6.6 Self-inflicted injury

Intentional self-injury or attempted suicide, subject to applicable law and the final policy wording.

6.7 Alcohol or drug abuse

Treatment directly attributable to abuse of alcohol, intoxicants, or non-prescribed drugs.

6.8 Hazardous activities

Professional participation in racing, mountaineering, aviation other than as a fare-paying passenger, or other declared hazardous sport.

6.9 War and nuclear risk

War, invasion, civil war, nuclear contamination, or related events.

6.10 Unproven treatment

Treatment without established medical evidence or treatment not recognized by the competent authority.

6.11 Non-medical items

Personal comfort items, attendant charges, administrative charges, and other non-medical expenses unless included in an accepted add-on.

6.12 Overseas treatment

Any treatment received outside India.

Not a claim decision

An exclusion can be applied only after the submitted claim and policy terms are assessed by the authorized claims process. The Policy Guide may explain wording but cannot decide admissibility.

SECTION 7

Optional add-ons

An add-on applies only when it is selected, underwritten where required, and listed in the issued policy schedule with its additional premium.

Clause	Add-on	Coverage
7.1	Maternity and newborn	Available only with INR 1,000,000 or INR 2,000,000 base SI. Limit is INR 50,000 for INR 1,000,000 SI and INR 75,000 for INR 2,000,000 SI, for up to two deliveries during lifetime. Nine-month waiting period. Newborn hospitalization is covered within the maternity limit for the first 90 days.
7.2	OPD Care	Annual outpatient consultation and prescribed diagnostic limit of INR 5,000 or INR 10,000 as shown in the schedule. Medicines and dental treatment are not covered.
7.3	Consumables Cover	Specified non-medical consumable items used during an admissible hospitalization are covered. Personal convenience items remain excluded.
7.4	Room Upgrade	Changes room eligibility for INR 300,000 and INR 500,000 SI to a single private room. Other limits remain unchanged.

7.5 Adding or removing an add-on

An add-on may normally be added or removed only at renewal. Addition is subject to underwriting and fresh add-on waiting periods. Removal does not refund premium for a completed prior policy period.

7.6 Maternity clarification

Routine prenatal and postnatal outpatient expenses are not covered unless they form part of an admissible maternity hospitalization or another selected benefit expressly includes them.

Schedule check

Do not assume an add-on is active because it appears in this brochure. Confirm the add-on name in the issued policy schedule.

SECTION 8

Premium rate guide

The tables below are synthetic base rates for RAG and deterministic premium-calculation testing. They are not quotations and exclude tax.

8.1 Individual annual base premium in INR

Entry-age band	SI 300,000	SI 500,000	SI 1,000,000	SI 2,000,000
18-35	6,200	8,900	13,800	21,500
36-45	8,100	11,700	18,200	28,400
46-55	12,600	18,100	28,300	44,200
56-60	18,900	27,200	42,600	66,500
61-65	24,800	35,700	55,900	87,300

8.2 Family Floater factor

Family composition	Multiply eldest member's individual base rate by
2 adults	1.70
2 adults + 1 child	1.80
2 adults + 2 children	1.95
2 adults + 3 children	2.10
1 adult + 1 child	1.35
1 adult + 2 children	1.50

8.3 Zone adjustment

Zone A residence: add 10%. Zone B residence: no adjustment. Zone C residence: reduce 5%. The zone recorded in the policy schedule applies.

8.4 Medical loading

Underwriting may apply a medical loading between 10% and 50%, with the applicant's consent before issuance. The accepted loading appears in the schedule.

8.5 Tax and final premium

Applicable tax is added after base rate, family factor, zone adjustment, add-ons, discounts, and accepted medical loading. The .NET premium engine and issued quotation remain authoritative; the Policy Guide may explain rates but must not calculate or promise the final payable amount.

Synthetic example

For a Zone B Family Floater with eldest age 40, 2 adults and 2 children, and INR 1,000,000 SI: $\text{INR } 18,200 \times 1.95 = \text{INR } 35,490$ before add-ons, medical loading, discounts, and tax.

SECTION 9

Claims process

Claims are assessed by authorized claims personnel. The Policy Guide may explain this process but cannot approve, reject, or settle a claim.

Clause	Claim route	Timing
9.1	Planned cashless treatment	Notify at least 48 hours before admission and submit the hospital pre-authorization request.
9.2	Emergency cashless treatment	Notify within 24 hours of emergency admission or as soon as reasonably possible.
9.3	Reimbursement claim	Submit the completed claim and supporting records within 30 days after discharge.
9.4	Post-hospitalization claim	Submit within 15 days after completion of the covered post-hospitalization period.

9.5 Common supporting records

- Completed and signed claim form.
- Hospital discharge summary and final itemized bill.
- Receipts and payment proof for reimbursement claims.
- Prescriptions, diagnostic reports, and treating practitioner's notes.
- Implant invoice or sticker when applicable.
- Accident details and police record when legally required.
- Bank-account proof for approved reimbursement payment.

9.6 Additional information

The claims officer may request reasonable additional information needed to establish coverage and admissibility. A request for information is not by itself an approval or rejection.

9.7 Fraud and misrepresentation

A fraudulent claim or material misrepresentation may lead to action permitted by the policy wording and applicable law after due review.

Checklist boundary

This brochure explains common claim records. The live SpeedClaim document checklist is configured separately by Admin and controls what the portal requests for a particular claim workflow.

SECTION 10

Policy servicing and endorsements

An endorsement is an approved change recorded against an issued policy. Requests are validated and do not become effective merely because they were submitted.

Clause	Requested change	When allowed	Conditions
10.1	Communication address	Allowed during policy term	Address proof may be requested; does not change rating zone until approved
10.2	Email or mobile number	Allowed during policy term	Verification may be required
10.3	Nominee details	Allowed during policy term	Subject to valid nominee information
10.4	Correction of name or date of birth	Correction only	Documentary proof and underwriting review may be required
10.5	Add spouse after marriage	Allowed within 60 days of marriage or at renewal	Additional premium and waiting periods may apply
10.6	Add newborn child	Allowed within 90 days of birth	Coverage starts only after acceptance and premium, subject to selected maternity/newborn benefit
10.7	Increase or decrease sum insured	Renewal only	Increase is subject to underwriting and waiting period on increased portion
10.8	Add or remove optional add-on	Renewal only	Addition is subject to underwriting and waiting periods
10.9	Transfer policy to another person	Not allowed	Policy ownership and insured interest cannot be transferred by ordinary endorsement
10.10	Backdated coverage change	Not allowed	An endorsement cannot create retroactive coverage for an event already occurring

10.11 Effective date

An approved endorsement takes effect on the date recorded in the endorsement schedule. Submission date and approval date may differ.

10.12 Premium impact

A change may create an additional premium or refund calculated by the deterministic policy-servicing system. The Policy Guide cannot calculate the amount.

SECTION 11

Renewal, cancellation and grievances

These rules describe continuity and service channels for the synthetic product.

11.1 Renewal

The policy is renewable annually. Renewal is subject to payment of the notified premium and may reflect approved product-wide rate changes. An individual claim alone does not remove the right to seek renewal, subject to the final policy wording and applicable law.

11.2 Grace period

A 30-day grace period is available after the renewal due date. Coverage is not available for treatment occurring during an unpaid break unless the final policy wording or applicable law requires otherwise. Waiting-period continuity is preserved when renewal is accepted within the grace period.

11.3 Free-look period

The policyholder may review the issued terms for 30 days from receipt of the policy. If no claim has been made, cancellation during this period may receive a refund after deduction of permitted medical-examination, stamp-duty, and proportionate-risk expenses.

11.4 Cancellation after free look

The policyholder may request cancellation. Any refund is determined from the cancellation scale in the final policy wording and is not calculated by the Policy Guide. The insurer may cancel only on grounds and through process permitted by the final policy wording and applicable law.

11.5 Grievance submission

A customer may raise a grievance in the SpeedClaim grievance portal using the relevant policy and grievance details. The grievance officer reviews the submission and provides the official response.

11.6 Escalation

If the first response is not satisfactory, the customer may use the escalation channel displayed in the portal or policy schedule. This synthetic brochure intentionally contains no real regulator, ombudsman, telephone, email, or postal contact.

AI grievance feature is separate

Brochure Q&A; does not read grievance text or customer-uploaded documents. Any future grievance summarization feature is a separate workflow with separate authorization and privacy controls.

SECTION 12

Definitions

Defined terms help interpret the brochure consistently. The complete issued policy wording may contain additional definitions.

Term	Meaning
Accident	A sudden, unforeseen, and involuntary event caused by external, visible, and violent means.
Admissible claim	A claim accepted as payable after applying coverage, waiting periods, exclusions, limits, documents, and other policy conditions.
Base sum insured	The sum insured shown in the schedule before no-claim bonus or recharge.
Cashless facility	A facility where an approved amount is settled directly with a network hospital, subject to authorization and policy terms.
Day-care treatment	A medically necessary procedure completed in less than 24 hours because of technological advancement and listed or recognized under the policy wording.
Hospital	An institution meeting the registration, staffing, bed, operation-theatre, and record requirements in the final policy wording.
Medical necessity	Health care consistent with diagnosis and accepted medical practice, clinically appropriate, and not mainly for convenience.
Network hospital	A hospital with an active cashless-service agreement at the time of treatment.
Policy schedule	The issued document recording policy-specific persons, coverage, premium, dates, add-ons, and underwriting terms.
Pre-existing disease	A condition diagnosed, treated, or showing signs or symptoms during the 36 months before the first policy start date.
Reasonable and customary charges	Charges consistent with prevailing provider charges for similar treatment in the same locality.

End of synthetic brochure

Version 1.0 is one complete text-based PDF. When used in the RAG prototype, retrieval must remain restricted to this exact brochure ID and version for every policy bound to it.
